¡Bienvenidos! This Fall program is especially aimed at students considering careers in medicine or health professions. Participants will experience firsthand the state of healthcare in Oaxaca through clinical rotations that will help clarify their academic and career goals and provide tangible skills and experiences that will help them attain those goals.

**Course Work: (Total Units: 20)**

The program will be structured to cater for a class of up to 27 students with a fixed curriculum for the quarter, a total of 20 units of credit. This structure will allow for lectures, discussions, excursions, and an internship. The four main components will include:

- **CHI 21** - Chicano/a and Latino/a Health Care Issues (taught in Spanish) (4 units)
- **CHI 145S** - Bi-National Health (taught in Spanish) (5 units)
- **CHI 147S** - Indigenous Healing and Biodiversity in Latin America (in Spanish) (4 units)
- **CHI 199S** - Directed group study which will require a research project and/or term paper (1 unit)
- **CHI 192S** - Clinical Rotation Internship, non-graded (6 units)

**Prerequisites:** BIS 1A & 1B or BIS 2A & 2B; Spanish 21 or 31

**Faculty Program Leader:**
Dr. Adela de la Torre
Department of Chicana/o Studies
adelatorre@ucdavis.edu

**Estimated Cost:**
$11,632.65

**Applications Due March 12, 2010**
Applications are accepted on a first-come, first-served basis.
